COLLECTION

The speed of lights

From Aromas, we travel with the speed of our lights to hundreds of countries, places and projects, getting to know their cultures, projects and illusions. It is a pleasure to collaborate with all of you to make aromas a real project every day.

Desde Aromas, viajamos con la velocidad de nuestras luces a cientos de países, lugares y proyectos, conociendo sus culturas, proyectos e ilusiones. Es un placer colaborar con todos vosotros para hacer de aromas un proyecto real cada día.

In Aromas del Campo we began our journey as a company in 1986, in Valencia. At that time our specialty was the manufacturing of potpourris of dried flowers and aromatic products. A few years later we started to make small glass table lamps filled with dried flowers. Since then, and once consolidated in the lighting sector, we moved our activity to the town of Bétera (Valencia), where we centralized production and international distribution of our lighting products.

We bet on technological design, functional and affordable lamps, with pure and simple lines but without neglecting the forms of Aromas. In this collection we focus on traditionally relegated materials to the construction finishes and decorative complements, such as marble, wood or ceramic. However, our main materials continue to be metal and glass, combined in a diversion of solidity and lightness that results in elegant and timeless pieces.

En Aromas del Campo comenzamos nuestra andadura como sociedad en 1986, en Valencia. En aquellos entonces nuestra especialidad era la fabricación de potpourris de flores secas y productos aromáticos. Unos años más tarde comenzamos a fabricar pequeños sobremesas de cristal rellenos de flores secas. Desde entonces, y una vez consolidados en el sector de la iluminación, trasladamos nuestra actividad a la población de Bétera (Valencia), desde donde centralizamos la producción y distribución internacional de nuestros productos de iluminación.

Apostamos por un diseño tecnológico, funcional y asequible, con líneas puras y sencillas pero sin descuidar la forma. En esta colección ponemos el foco en materiales tradicionalmente relegados a los acabados constructivos y a los complementos de la decoración, como son el mármol, la madera o la cerámica. Sin embargo, nuestros materiales principales continúan siendo el metal y el cristal combinados en un juego de solidez y ligereza que resulta en piezas elegantes y atemporales.

CREATE YOUR OWN
PENDANT LAMP

CREA TU PROPIA
LÁMPRA COLGANTE

01

Which pendant is ideal for your lamp?

Search through our extensive catalog of individual pendants and choose the ideal one for your idea and space.

Qué colgante es ideal para su lámpara?

Busque entre nuestro amplio catálogo de colgantes individuales y elija el ideal para tu idea y espacio.

02

Shape and measurements of the canopy

Check the space where the lamp will be installed and check which size and shape best suits it.

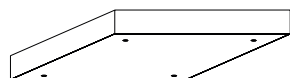

Forma y medidas del florón

Revise el espacio donde se instalará la lámpara y compruebe qué tamaño y forma se adapta mejor al mismo.

Round

300 x 300 x 45 mm
500 x 500 x 45 mm
700 x 700 x 45 mm

Square

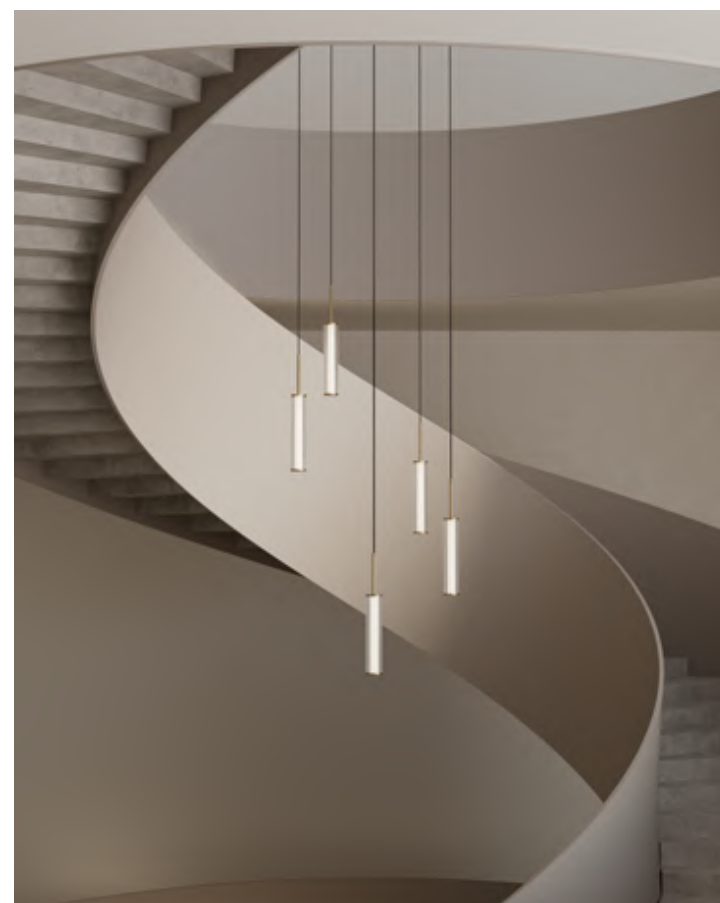

400 x 400 x 45 mm
600 x 400 x 45 mm

Rectangle

700 x 250 x 45 mm
700 x 45 x 45 mm

** Para otras medidas y formas, consulte a nuestro departamento técnico y comercial.*

03

Finishes and canopy outsides

Our basic finishes are: Matt black and matt white.

You must inform us of the number of outlets and their distribution, as well as the length of each pendant.

Acabados y salidas del florón

Nuestros acabados básicos son: Negro mate y blanco mate.

Debe informarnos del número de salidas y su distribución, así como de la longitud de cada colgante.

Information

INFORMACIÓN GENERAL GENERAL INFORMATION

Las descripciones y medidas de los productos del presente catálogo son orientativas, pudiendo por tanto ser modificadas, a fin de mejorar las características técnicas o de diseño. La empresa se reserva el derecho de anular o modificar cualquier modelo sin previo aviso. Todos los modelos cumplen las normas exigidas por la CE para iluminación de uso doméstico y sus características vienen determinadas por las clase 1 y la clase 2. Los acabados y las especificaciones técnicas corresponden a los productos que se suministran en Europa, pudiendo estos variar en otros mercados. Para una buena conservación de las lámparas, no usar bombillas de potencia superior a las recomendadas y limpiar solamente con un paño seco. No usar limpiametales ya que dañan los barnices protectores que garantizan la duración del acabado.

The descriptions and dimensions of the items in this catalogue are indicative and may be modified for the purpose of technical or design improvements. We reserve the right to cancel or change all models without prior notice. All items meet the CE, Class 1 and class 2 safety regulations for home lighting appliances. The finishings and technical specifications listed here are for the European market and may vary elsewhere. Do not use stronger bulbs that recommended, and always clean lamps with a soft dry cloth. Metal polish will damage the protective finishings.

IMÁGENES IMAGES

Algunas imágenes mostradas en este catálogo corresponden a renders y son susceptibles de tener ligeros cambios en medidas y acabados respecto al producto final.

Some images shown in this catalogue correspond to renders and are likely to have slight changes in measurements and finishes with respect to the final product.
